

## **FIRE DRILLS**

To comply with the fire laws, fire drills are held monthly. Students are to follow the directions posted in each classroom. Everyone should exit from the school building in a quiet and orderly manner. If a student is not in a classroom, he/she should follow the directions of a staff member or go directly outside by the nearest exit and then report to an adult.

## **SAFETY DRILLS**

Safety drills will be held throughout the school year. When students and staff hear Mr. Lock is in the building, they immediately go into the closest classroom and students are to follow specific directions. A Soft Lockdown will occur when hallways need to be cleared. A soft lockdown requires students to remain in classes. A Perimeter Lockdown indicates that all doors are locked and **NO ONE** may enter or leave the school.
