Superintendent's Board of Education Report

March 2020

Significant progress has been made on addressing the personnel issues the district has been facing. Replacements for the Pupil Services Director position and the Middle School math position will be on the March 10th Board of Education agenda. Also, reports on the Next Generation Accountability Report and the 2019 Fall Quality Assurance Survey (Staff) will also be discussed.

The district has been proactive in informing the community about the Coronavirus outbreak with regular communication with parents. The weekly "deep cleaning" of all school facilities continues. Hand sanitizers have been distributed to all classrooms. School buses will be receiving regular disinfecting cleaning on a regular basis. In addition, we are participating with the FirstSelectman, Emergency Management Director, and EMS on town wide efforts to address the Coronavirus issues in Canterbury.

James A. Connelly
Interim Superintendent of Schools
