

**This is an update on our district's work to provide meals to our students and families:**

Good morning Canterbury families. We hope you are all staying healthy and safe. A reminder that Canterbury Public Schools is providing weekday meals for all students ages 18 and under between 9 am and noon at Dr. Helen Baldwin Middle School. In order to reduce the amount of face-to-face contact between citizens, we are reducing the days for pickup to Monday Wednesday and Friday only. At that time, parents will be able to pick up enough food to cover feeding their students for the weekdays between scheduled pickup days. For example, for a parent with two children, when they come for food pickup on Monday, they will receive two breakfasts and lunches per child, to cover Monday and Tuesday. When you arrive at Baldwin, please pull up towards the main school entrance. You will find a cart with a staff member who will place prepared food bags on a table for you. Please take a lunch for each student in your home, age 18 and under, and proceed out of the parking lot. Thanks for your support as a community and for helping us ensure that our children are eating regular and healthy meals during the school week.
