

August 2020

Dear Students,

We have missed you a lot and we look forward to seeing you again. I know that you have a lot of questions about how school might be different.

Our classrooms will look a little different, but your teachers are still the same. They love you and are here to teach you. They will help you every day to understand our new routines.

I hope you have made some great memories with your family this summer. I hope you have been outside playing and that you have found time to read some good books.

Know that I am still here in the school, waiting for you to return soon. I look forward to seeing you.

Your Loving Principal,

Miss Cary
