Dear Parents and Community Members,

The Canterbury Board of Education has formed an Ad Hoc High School Review Committee to review the current status of our high school options for students. The goals of the committee are to assess the quality of current designated high schools, inform the community of program offerings, and to determine the fiscal impact of current high school choices. The Board values the importance of having a wide range of representatives on the High School Review Committee. We believe in order to have productive meetings the number of committee participants should be limited to sixteen members. The following stakeholder roles were identified: 2 Board of Education members, 2 Board of Finance members, 3 community members, 3 Baldwin Middle School parents, 3 Canterbury Elementary School parents, and 3 administrators.

The survey is being sent to parents and the community to seek volunteers for participation. We anticipate meeting in the evening, once every 3-4 weeks, and meetings should last 1 to 2 hours.

In the event there are more interested participants than the identified number of role members, participant names will be randomly selected.

Please complete the form if you are interested in participating.
