

December 18, 2020

Dear CES Families:

Greetings from CES! As we wind up before the break, I would like to take a moment to thank all of you for the ways you have responded to the changing routines and practices that have come our way because of the pandemic. We have been busy this month at CES and I bet you have, too! I hope that all of us enjoy a safe and restful break.

Some reminders for you:

Kids' Lab is back in full swing and offering remote sessions to all students on a variety of science topics. We are trying different times and subjects. Please feel free to reach out to me with any ideas or suggestions.

Safety Drills are a monthly event at CES. So far we have been conducting fire drills. Some parents have asked me to make sure that we maintain our COVID protocols as we begin our other safety drills such as lockdown practice. Rest assured that we always keep our COVID protocols as the forefront of our minds.

Winter Wear is starting to come in to school. As you know, CES goes outside as much as possible. For our younger students, would you please consider giving them practice on how to put on their gear? As we practice social distancing, putting on winter wear is an activity that it best completed by the student. If you could assist us by giving them time to practice at home, that would be wonderful.

Wishing you and your family a safe, happy, and warm holiday season.

Miss Cary
