Dear Parents, Community Members, and Elected Officials,

As we begin planning for the next school year it is important to take a moment to reflect on the past year. Last January, the world anxiously watched as the Coronavirus began to spread internationally and we all wondered how this pandemic would affect us in the United States. Its impact on our health care system, economy, education system, and society as a whole was beyond our imagination. The rate of change within the school community that occurred in the early months of the pandemic was incredible. It was immediately evident that our infrastructure to manage an online learning environment was unprepared, but our students and staff proved to be resilient. Everyone pulled together, worked harder, worked smarter, and learned many new skills.

It is now critical that Canterbury begins to plan for a post-pandemic world. What does Canterbury want for its students and its community? What skills do students need to be successful in this new and emerging economic era? We are already hearing stories of major industries recognizing the cost saving benefits of working remotely and collaboratively. New terms such as asynchronous learning and synchronous learning are now common vocabulary among educators and businesses.

For the past thirty years the education environment has been promoting 21st century learning skills, sometimes referred to as the five "C's": Collaboration, Communication, Creativity, Critical and Computational thinking—to foster greater learning.

We must now enter a knowing-doing environment. We know what needs to be done to prepare students for their future, now we must do it.

This budget attempts to prioritize early education and intervention in order to close the exaggerated learning gaps for so many of our students. This budget identifies areas of need to improve access and opportunity in the areas of the arts, as well as academics. It is the intention of this budget to lay the foundation for a sustainable fiscal budget while maintaining our facilities and infrastructure. Finally, this budget places an emphasis on the physical and emotional safety of our students.

This budget is committed to the following priorities:

- ☐ Maintain appropriate class sizes
- ☐ Prioritize early childhood education
- ☐ Restore music programs for middle school students
- ☐ Provide access to World Language instruction
- ☐ Provide appropriate intervention opportunities for all students
- ☐ Continue to advance social and emotional learning for all students

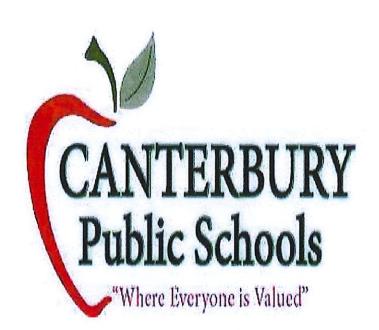

In the next several weeks the district will receive additional guidance on the ESSER II and American Rescue Plan grants. These funds and other grant funding will be utilized to enhance our effort to support district priorities and make upgrades to our infrastructure.

On behalf of the children in Canterbury Public Schools we thank you for your dedication and commitment to ensure that our school system has the resources it needs.

Sincerely,

Steven Rioux
