## Confirmed COVID-19 Case in School

November 17, 2021

Dear Parents and Community Members:

On Wednesday, November 17, 2021, the Canterbury Public School District was notified that a member of our school community has tested positive for coronavirus (COVID-19). The affected person has been instructed to remain home and quarantine for 10 days.

The last day this person was at Canterbury Elementary School was November 12, 2021. Had there been anyone considered a “close contact” with this person, they would have been contacted by school or local health officials and provided with instructions on the appropriate steps to take.

**Through our investigation, no individuals were identified as close contacts. Had there been close contacts identified, those individuals may have been instructed to follow “screen and stay” guidelines or remain home and quarantine in order to provide for the safety of students, staff, and others in the school community.**

**At this time, all schools will remain open for in-person learning.**

As a reminder, COVID-19 is spread mainly via person-to-person contact through contaminated air droplets from coughing and sneezing by an infected person. As with controlling the spread of other viruses, we urge everyone to discuss the following preventive measures with your children and family members:

- Wash your hands frequently, but especially after using the restroom and before preparing or consuming food. Using soap and hot water, wash for about 20 seconds. Be sure to also wash your fingertips. When soap and water are not available, use hand sanitizer.
- Avoid coughing or sneezing into your hands or in the air. Always try to cough or sneeze into a tissue, then throw the tissue away. If you don't have a tissue, cough/sneeze inside the elbow of your arm.
- As much as you can, avoid touching your eyes, mouth, and nose.
- Wear a face covering (mask) whenever there is a likelihood that you or your family members will be in the presence of others.
- Maintain social distancing (at least 6 feet when feasible) between yourself and others when outside of your home.

If you feel ill, stay home. Below is the list of COVID-19 symptoms for which everyone should monitor in their family members:

- Fever (100.4° Fahrenheit or higher)
- Chills or shaking chills
- Uncontrolled new cough (not due to other known cause, such as chronic cough)
- Difficulty breathing or shortness of breath
- New loss of taste or smell

For additional information on COVID-19 symptoms, please see:

<https://www.cdc.gov/coronavirus/2019-ncov/symptoms-testing/symptoms.html>

Staff and students exhibiting any of the above symptoms, or feeling ill, should call their medical provider to report their symptoms and ask about testing prior to seeking in-person care at a clinic, physician's office, or hospital.

For more information on what to do if you or a family member has possible symptoms, a diagnosis, or exposure to COVID-19, please see:

<https://portal.ct.gov/-/media/SDE/COVID-19/Addendum-5-Interim-Guidance-for-Responding-to-COVID-19-Scenarios-in-CT-School-Districts.pdf>

We are closely monitoring this situation and working with Northeast District Department of Health and will provide you with updates as we know more. If you have questions, please do not hesitate to contact me.

Sincerely,

*Steven Rioux*

Superintendent of Schools
