

November 4, 2021

Dear Parents and Guardians,

In the month of November, 8th grade students will be getting a lot of information about the high school process. Please ask your students to share with you information about setting up shadows to some of the high schools that are making shadow days available. This is a great way to get a better feel for the high school environment. At this time, Norwich Free Academy and Griswold High School are allowing shadowing and transportation will be available. Students will also bring home information on how to access virtual open houses and application process to some of our school options. Please note that Ellis Tech online Open House will be available for viewing by November 10th and a link will be forthcoming.

Please feel free to contact me if you have any questions at dzuckerman@canterburypublicschools.org

Thank you,

Diana Zuckerman
