

2021-2022 General Fund Forecast

February Overview

- **Salaries (101-190)**
 - For fiscal year 2022 our total budget in our salary accounts is \$5,374,268 which is about 46% of our total budget. Our current forecast anticipates a deficit of (\$2,232.02). Salary accounts include all certified and non-certified positions including sub accounts. Currently we are anticipating a deficit in some of our sub accounts due to some long term roles that needed to be filled. The change here from our January forecast is a reduction in an encumbrance for a non-certified salary account.
- **Benefits (210-290)**
 - Benefits include medical, dental, vision, life, short and long term disability insurance. This object code also includes employer taxes, tuition reimbursements, unemployment, workers' compensation, and other benefits. Other benefits are items such as district annuity contributions and DOT physicals. Our February forecast anticipates a reserve of \$31,799.
- **Professional Services (322-330)**
 - Professional services are in the 300 object codes. Professional services are budgeted items such as professional development for staff, contracted services, and purchased services. Some examples of purchased services or contracted services are our annual audit costs, attorney fees, Occupational and Physical Therapy, Behavioral Analysts, Speech services, Pysch services, and diagnostic evals. Our February forecast anticipates a deficit of (\$18,361). We have anticipated costs in such things as professional development and attorney fees, as we move forward through the year, these forecasted amounts may be adjusted.
- **Plant Operations (410-431)**
 - All of the 400 object codes refer to plant operations and utilities. Items coded here would be electricity, maintenance agreements, facility repairs, and trash removal. We currently are anticipating a reserve in our plant operations accounts of \$9,453.56. This forecasted reserve anticipates our repairs and maintenance account to be fully spent. As of right now, we don't anticipate any major repairs needed but that can change at any time.
- **Transportation / Tuition / Insurance / Communication (510-590)**
 - The 500 object codes cover contracted transportation, travel reimbursements, all tuition, insurance (Property, liability, cyber, etc.), printing and binding, postage, telephone, and advertising. Right now we anticipate a reserve of \$158,689.37. This reserve is primarily driven by our tuition accounts. We do anticipate a deficit in our contracted transportation.
- **Supplies (611-690)**
 - Supply accounts will be found in the 600 object codes. Instructional supplies will be coded as 611, these are any supplies directly needed to aid in instruction. Other supplies (office supplies, nurse supplies, general school supplies) will be coded as 690. Facility (613, 614, 620) and transportation (626) supplies will be found here as well. Our supply accounts currently reflect a forecasted deficit of (\$20,194.16). There is an additional forecasted amount for heating fuel that is driving the deficit. We are also currently forecasting all other supply lines to be fully spent.
- **Equipment (730-739)**
 - Equipment will be coded in the 700 object codes. Technology equipment is coded as 733, software is coded as 735, facility equipment is coded as 736 and other equipment, such as for transportation, will be coded as 739. Equipment currently reflects a deficit of (\$2,430.74).
- **Dues & Fees (810)**
 - All dues and fees accounts are coded as 810. Dues and fees are then broken out by program and function of each school or department. Dues & Fees are anticipated to be fully spent.

- **Other Objects (899)**

- Other objects is a new object code for this year. Any expenses that would not fall into one of the above object codes would be coded here. For our February forecast we anticipate these accounts will be fully spent.

Overall, our total spent to date for FY22 is \$6,029,165.98 which is about 51% of our total budget of \$11,803,406. The current forecasted reserve is \$156,504.01.
