Failure to Comply With Order DWS-21-022-039

Este informe contiene información importante acerca de su agua potable. Haga que alguien lo traduzca para usted, o hable con alguien que lo entienda.

Date: March 31, 2023

To the Customers of: Dr. Helen Baldwin School PWS ID: CT0221122

Order Issuance Date: Nov 19, 2021

Our public water system recently violated the terms of a Consent Agreement, Consent Order, or Administrative Order of the CT Department of Public Health. Although this was not an emergency, as our customers, you have a right to know what happened and what we did to correct the situation.

What does this mean?

Our public water system was issued an Administrative Order or entered into a mutually agreed upon Consent Agreement or Consent Order to ensure compliance with the Regulations of Connecticut State Agencies and/or Code of Federal Regulations. We failed to comply with one or more of the terms of that order or agreement.

Why was an Order or Agreement issued?

Dr. Helen Baldwin School incurred a lead exceedance during the January 1, 2019 to December 31, 2021 compliance period. Optimal corrosion control treatment (OCCT) installation was not completed by the required date.

What should I do?

This is not an emergency. If it had been, you would have been notified immediately. However, if you have input, question, or concerns please contact the individual or organization listed below.

What is being done?

The OCCT installation was required to be installed by 9/17/2022. Due to a backorder of materials the project was completed on 12/6/2022.

We expect to return to compliance or resolve the situation by December 6, 2022
(date)
